Dear Mike and Rebecca,

The Trump Administration is committed to nurturing the State-Federal partnership. As we did last year, we are conducting a short survey to determine each Governor's 2019 State-Federal priorities. The White House Office of Intergovernmental Affairs appreciates each Governor providing perspective on their priorities. We ask that you, or a senior member of your team, complete the survey by **Friday, February 8 at 3:00 p.m. EST.**

Hi Rebecca,

Below is everything that we'll need for Governor Justice's visit to the White House on Thursday, September 5. Please plan to arrive at 3:30pm through the vehicle entrance at 17th and E Street. A member of the IGA team will greet the Governor on arrival and bring him to the ceremony.

Security Information:

- Please have the Governor's detail complete the waves links below in order to be cleared. Note that the information submitted must match what is listed on the individual's driver's license.
<https://events.whitehouse.gov/?rid=QXTDRBRGK3>
- Please provide me with the Governor's full legal name and city of residence (as listed on his driver's license) and I will clear him into the complex

Security Detail:

We need the Governor's security detail to reach out to the Secret Service to coordinate security and arrival logistics. Secret Service can be reached at (202) 757-3950. They will ask you to fill out and submit the protectee notification form, or "short form" (attached). Please CC me when you send it. Secret Service will not allow members of the Governor's security detail in to the White House Complex but they can remain with the parked vehicle.

Just wanted to follow-up to confirm that you received my email from yesterday. Please let me know if you have any questions or if I need to submit things differently. I sent 3 names through portal, the Governor, Executive Protection and Driver.

We do understand the Governor is the only one with access.

Also, we are concerned about access for Monday for the Governor. The Governor has mobility issues and any accessible entrance that you can provide would be greatly appreciated. The Governor is unable to walk long distances.

Thank you again for accommodating our needs. I apologize again for the tardiness in getting the info to you yesterday.

Hi Governors' Senior Staff,

Thank you to you and your governor for signing the USMCA support letter signed by all Republican governors! The President and Vice President very much appreciate the engagement, and although we know there is more work to do, we are encouraged by the strong drum beat of support which you made stronger and louder today.

USMCA Update: Today, President Donald J. Trump is meeting with Canadian Prime Minister Justin Trudeau (here is a new [fact sheet](#) on our vital economic ties and close alliance with Canada). Yesterday, Mexico [voted](#) to ratify the USMCA. Also yesterday, Governor Ducey of Arizona released a joint letter with Sonora, Mexico Provincial Governor Claudia Pavlovich [urging](#) ratification of USMCA.

Thanks also for further action that several governors have taken to help highlight the strong letter and make another push on USMCA – a few examples are listed below.

Governor Statements on Today's 28 Governor USMCA Support Letter Release

- **Governor Mike DeWine (OH):** "Today I joined 26 other governors to urge the #House and #Senate to swiftly pass the United States-Mexico-Canada Agreement to protect U.S. workers, grow jobs, and encourage free and fair trade. #USMCA #Ohio @The_RGA"
- **Governor Phil Bryant (MS):** "Proud to join 26 other @The_RGA governors in support of #USMCA. USMCA is a 21st century agreement that protects workers across the nation, establishes a level playing field among the United States and our partners, and encourages free and fair trade."
- **Governor Larry Hogan (MD):** "Today, the nation's Republican governors are joining together to urge Congress to approve the United States-Mexico-Canada Agreement. Strategic trade agreements like the USMCA are essential for the prosperity of our nation and of Maryland by creating jobs and strengthening economic ties. @The_RGA. Read our letter here."
- **Governor Bill Lee (TN):** "Proud to join my fellow Republican Governors in signing a letter of support for #USMCA, a landmark agreement that will protect American workers and promote economic growth in our states."
- **Governor Henry McMaster (SC):** "Today I'm standing with governors across the United States to urge Congress to pass the USMCA, a much needed modernization of trade policy with our neighbors."
- **Governor Brad Little (ID):** "Our neighbors to the north and south play an integral part in Idaho's economy. I stand with President Trump; Congress should approve the US-Mexico-Canada Agreement! The deal would greatly benefit businesses and produces across our state. @WhiteHouse."
- **Governor Asa Hutchinson (AR):** "Pleased to join 26 other governors in support of #USMCA. Completion of the trade agree is critical to our states as we seek to boost economic development & encourage new investment. I invite Congress to join the AR delegation in support of this important trade agreement."

Thanks again,

Hi Olivia,
Just wanted to follow-up and provide some information that has been sent by our Captain of Executive Protection, Drew Pendleton.

Traveling with the Governor that day will be:
Drew Pendleton-WV Captain of Executive Protection
Chris Francis-Driver with VA State Troopers

We understand that they do not have access but wanted to share their roles. They may have included them on the RSVP link and I did not want to cause any confusion.

Please let me know if you have any questions.

Subject: RE: Letter On The Shutdown

Hi all,

I understand a letter is circulating among the Big 7 state/local associations.

Some thoughts for your consideration to avoid taking the talking points of Congressional Democrats and the charged political rhetoric the letter espouses:

- First highlight below adds text to make this a more neutral tone and not just using Congressional Democrats talking points
- Next highlight focuses on a few areas with politically charged rhetoric. The only reason this was added was because of the discussion of the crisis at the border. Are governors saying there is not a crisis at the border?
- The next highlight focuses on statement as “state and local elected and appointed officials” – the people signing this letter are not state and local officials.
- Last highlight is completely the Democrats talking point. Speaker Pelosi told the President she would not negotiate on his priorities if the government was reopened – no governor would agree to similar terms with a state legislature.

Also, the letter misses an opportunity to thank the Administration for minimizing the impact of the shutdown within the confines of law rather than maximizing the impact like the Obama Administration did. See the attached summary of Administration’s mitigation efforts. Governors of both parties have publicized and thanked these actions. For example, just today the Iowa Governor’s Office (see attachment) publicized that USDA was temporarily re-opening offices and the Louisiana Governor has praised solutions on SNAP and flood insurance (found here: <https://twitter.com/LouisianaGov/status/1082804025429581825>).

Federal leaders most important oath to the American people is to keep them safe which is why the common sense border measures are so important. I know governors agree with that. That message seems to be missing from this letter.

Finally, do the organizations have citations for all the things in the list of impacts?

Thanks,

Nic

President Trump, Leader McConnell, Leader Schumer, Speaker Pelosi and Leader McCarthy:

On behalf of the seven leading organizations representing governors, state legislatures, mayors, county officials, city officials, city and county managers and the elected leadership of every state and local government in this country – we implore you to **compromise and** immediately end the current shutdown, the longest ever by the federal government.

This shutdown breaks the commitment that each member of Congress and the Executive Branch made to the American people when you were elected.

This shutdown imperils the ability of 800,000 federal employees to provide for their families, it impacts critical public services to millions of citizens and it could cause our national economy to shift into reverse. It will almost certainly cause the national unemployment rate to rise at the end of this month. Furthermore, the hundreds of thousands of federal workers working without pay are unable to receive unemployment insurance benefits, which jeopardizes their ability to survive without a paycheck.

Members of the White House Council of Economic Advisors projects that the shutdown cuts quarterly economic growth by 0.13 percentage points for every week that it continues. The suppression of consumer spending due to the shutdown could lead to the end of one of the longest economic expansions in U.S. history.

We are in an actual crisis with the lack of functioning agencies and a crisis of confidence in the federal government's ability to perform its basic functions. **Both crises are unnecessary and manufactured** by the inability of the federal government to reach a compromise. State and local officials, who compromise each day to ensure that people's needs are being met, believe this is unacceptable.

The impacts of the lapse in federal government appropriations for dozens of federal agencies is significant. Citizens, states and localities are being impacted by:

- major disruptions in Supplemental Nutrition Assistance Program without certainty that future benefits will be available;
- the lapse in authorization and appropriations for Temporary Assistance for Needy Families, which could place the future of the program at risk and cut down the safety net for low-income families;
- higher rates of absences for Transportation Security Administration employees due to their unpaid status;
- delays in new transportation infrastructure projects due to federal funding uncertainty;
- delayed payments for federal homelessness assistance programs and public housing, which could lead to evictions for vulnerable families;
- delayed payments for federal disaster aid to storm- and wildfire-ravaged areas from the U.S. Department of Housing and Urban Development;
- the stoppage of federally-backed loans to start and grow small businesses and for rural economic development;
- limited staffing at the Federal Emergency Management Agency impacting emergency management from technical support to trainings and emergency response grants;
- an at-risk food system due to cancelled routine and unannounced safety inspections to uncover unsanitary conditions;
- a federal court system that will be shut down this week;
- the delay in implementation of 5G technology due to the shuttered Federal Communications Commission;
- overflowing trash, increased safety risks and endangered and destroyed natural resources at America's national parks;
- unemployment in Native American communities due to tribal governments furloughing federally-funded employees;
- at-risk coastal security due to reduced capabilities of the U.S. Coast Guard; and
- partnering on multiple federalism-related events – including roundtables, hearings, forums and other discussions between state and local elected officials and their federal counterparts.

As the state and local elected and appointed officials responsible for ensuring citizens are taken care of, we have seen these impacts every day of the two dozen days the government has been shut down.

We cannot ignore these impacts and we ask you to stop ignoring them and re-open the government while you negotiate, since your talks continue to languish.

We strongly urge for there to be votes to re-open the government in both houses of Congress next week and immediate approval by the President. The nation cannot wait any longer.
